Choose your flight style

Start with a build type, then dial in every component to your exact needs.

Beginner 3.5"

Small, affordable and forgiving — perfect for learning acro and your first outdoor flights.

BEST FIRST BUILD

5" Freestyle

The classic FPV setup. Plenty of power for tricks, gaps and aggressive flying.

MOST POPULAR

Cinematic

Tuned for smooth footage. Pairs well with action cameras and digital video systems.

GOPRO READY

Long Range

Efficient 6S/7" builds built for endurance, GPS waypoints and stable cruising.
